

SACMAT 2008

Call for Papers

13th ACM Symposium on Access Control Models and Technologies (SACMAT 2008)

The Stanley Hotel, Estes Park, Colorado 80517, USA. June 11-13, 2008

URL: www.sacmat.org

Papers offering novel research contributions in any aspect of access control are solicited for submission to the ACM Symposium on Access Control Models and Technologies (SACMAT). SACMAT 2008 is the thirteenth of a successful series of symposia that continue the tradition, first established by the ACM Workshop on Role-Based Access Control, of being the premier forum for presentation of research results and experience reports on leading edge issues of access control, including models, systems, applications, and theory. The missions of the symposium are to share novel access control solutions that fulfill the needs of heterogeneous applications and environments and to identify new directions for future research and development. SACMAT gives researchers and practitioners a unique opportunity to share their perspectives with others interested in the various aspects of access control.

Accepted papers will be presented at the symposium and published by the ACM in the symposium proceedings. Outstanding papers will be invited for possible publication in ACM Transactions on Information and System Security (TISSEC).

Topics of Interest include but are not limited to

- Access control models and extensions
- Access control requirements
- Access control design methodology
- Access control mechanisms, systems, and tools
- Access control in distributed and mobile systems
- Access control for innovative applications
- Administration of access control policies
- Delegation
- Identity management
- Safety analysis and enforcement
- Standards for access control
- Trust management
- Trust models
- Theoretical foundations for access control models
- Usage control

★ **Paper Submission** (Submission site: <http://www.easychair.org/SACMAT-13/>)

Papers must be written in English. We require that papers use the ACM proceedings format, using one of the ACM SIG Proceeding Templates (<http://www.acm.org/sigs/pubs/proceed/template.html>). The length of the paper in the proceedings format should not exceed ten US letter pages, excluding well-marked appendices. Committee members are not required to read the appendices, so papers must be intelligible without them. Papers are to be submitted electronically as a single PDF file, formatted for 8.5" X 11" paper, and no more than 5MB in size. It is the responsibility of the authors to ensure that their submission will print easily on simple default configurations. Papers should clearly include the identity of the authors and their affiliations (that is, reviewing is not blind).

All submissions **MUST** reflect original work and **MUST** adequately document any overlap with previously

published or simultaneously submitted papers from any of the authors. Failure to clearly document such overlaps will lead to automatic rejection. In particular, simultaneous submission of the same paper to another conference with proceedings or a journal is not allowed. If authors have any doubts regarding such overlaps, they should contact the program chair prior to submission.

For paper submissions, an abstract must be submitted by January 28, 2008, and the full paper must be submitted by February 1st, 2008. Because of the tight review schedule, extension to these deadlines cannot be granted.

✦ **Panel Proposal Submission**

Proposals should be no longer than two pages in length, should include possible panelists, indicating those who have confirmed participation. Proposals can be e-mailed to the Panels Chair, James Joshi (jjoshi@mail.sis.pitt.edu)

✦ **Industry and Government Report Submission**

Reports describing innovative commercial solutions, requirements, or experiences in product development and deployment related to access control are solicited for presentation at the Symposium. Each accepted report will be presented in a 30-minute speaking slot (including question time). Industry and government reports are not published in the proceedings but speakers are strongly encouraged to post their presentations on the SACMAT web site. Submissions related to commercial software or industrial strength prototypes are especially encouraged. A brief proposal consisting of 1-2 paragraphs describing the proposed talk along with a brief bio of the presenter should be e-mailed to the Industry Reports Chair, David Ferraiolo (david.ferraiolo@nist.gov).

✦ **Important Dates**

Paper abstract submission due:	January 28, 2008 (No extension.)
Paper submission due:	February 1, 2008 (No extension.)
Panel proposal submission due:	February 15, 2008 (No extension.)
Industry and government report submission due:	February 15, 2008 (No extension.)
Acceptance notification:	March 7, 2008
Camera ready version due:	April 3, 2008

✦ **Program Committee**

Gail-Joon Ahn (University of North Carolina at Charlotte, USA)
Mike Atallah (Purdue University, USA)
Vijay Atluri (Rutgers University, USA)
Steve Barker (King's College, London University, UK)
Lujo Bauer (Carnegie Mellon University, USA)
Elisa Bertino (Purdue University, USA)
Konstantin Beznosov (University of British Columbia, Canada)
Barbara Carminati (University of Insubria, Italy)
Michael J. Covington (Intel Corp., USA)
Jason Crampton (Royal Holloway, University of London, UK)
David Eysers (University of Cambridge, UK)
Elena Ferrari (University of Insubria, Italy)
Trent Jaeger (Pennsylvania State University, USA)

Christian Jensen (Technical University of Denmark)
 James Joshi (University of Pittsburgh, USA)
 Axel Kern (Beta Systems Software AG, Germany)
 Shriram Krishnamurthi (Brown University, USA)
 Ninghui Li (Purdue University, USA)
 Patrick McDaniel (Pennsylvania State University, USA)
 Sylvia Osborn (University of Western Ontario, Canada)
 Francesco Parisi-Presicce (University of Rome, Italy)
 Joon S. Park (Syracuse University, USA)
 Indrakshi Ray (Colorado State University, USA)
 Reiner Sailer (IBM Research, USA)
 Ravi Sandhu (University of Texas at San Antonio and TriCipher, USA)
 Andreas Schaad (SAP Labs, France)
 Dongwan Shin (New Mexico Tech, USA)
 Anna Cinzia Squicciarini (Penn State University, USA)
 Scott C. Stoller (Stony Brook University, USA)
 Vipin Swarup (The MITRE Corporation, USA)
 Bhavani Thuraisingham (University of Texas at Dallas, USA)
 Marianne Winslett (University of Illinois at Urbana-Champaign, USA)
 Ting Yu (North Carolina State University, USA)
 Xinwen Zhang (Samsung Information Systems America, USA)

→ Officials

General chair:	Indrakshi Ray (Colorado State University, USA)
Program chair:	Ninghui Li (Purdue University, USA)
Panel chair:	James Joshi (University of Pittsburgh, USA)
Industry and government report chair:	David Ferraiolo (NIST, USA)
Proceedings chair:	Axel Kern (Beta Systems Software AG, Germany)
Publicity chair and web site master:	Gail-Joon Ahn (University of North Carolina at Charlotte, USA)
Treasurer:	Elisa Bertino (Purdue University, USA)
Steering committee chair:	Ravi Sandhu (University of Texas at San Antonio and TriCipher, USA)
Steering committee members:	Gail-Joon Ahn (University of North Carolina at Charlotte, USA)
	Vijay Atluri (Rutgers University, USA)
	Elisa Bertino (Purdue University, USA)
	David Ferraiolo (NIST, USA)
	Elena Ferrari (University of Insubria, Italy)
	Trent Jaeger (Pennsylvania State University, USA)
	Axel Kern (Beta Systems Software AG, Germany)
	Sylvia Osborn (University of Western Ontario, Canada)
